Ben Franklin outwored in 1863

Monday May 11th Light breeze from the Westward and fine weather stood to the Eastward at 11 A.M. Saw a steamer astern steering dead for us and I thought that the Alabama or some other confederate cruiser had us shure, but she kept on her course and did not come near us and we are safe for to day. This is the first fair day we have had since we left. Last Tuesday morning at 7 A.M. we got under way and stood out. the wind which was fresh at the time soon became a gail from N.E. with rain and cold weather and it kept it up varying from N.E. to N.W. with hard squalls and bad sea running which kept the decks flooded with water most of the time but the little bark did well and made better weather than some big ship would have done under the same circumstances. Last night the wind died away and now the weather is fine. Got a latitude and some sights for time to determine the longitude for the first time since sailing.

Lat 37.37' N.

to the end.

Lat 38 4 N.

Lon 23 15 W.

Saturday 5th

Light air from Northward
and calm at 4 P.M. the last end
of S.T. Michael's. bore south 25 miles

Lat 38 15

Lon 25 10.

Sunday 6th

Light breeze from the North
and cloudy at day-light saw the
Island Series to the Westward at

10.30 A.M. saw Sperm Whales going

Sperm. W. by compass at noon lowered the
boats at 1.30 P.M. got first, the whole

Nothing run and sounded loud taking 2
lines each time and would not
let a boat come nearer within
a boat's length worked till near
sunset and the the iron broke, being
completely driven in by the
the long continued strain upon it
the whale went off and we came to
the ship with sad hearts

Monday 7th

Light air and calms 20 miles
North of the last end of Series

Tuesday the 8th

Light air and calms near
about 15 miles N. end of S.T. George W. at sunset

Wednesday 9 same as the preceding air from the N.

Thursday 10 same as yesterday air from Eastward

September 1863.

Tuesday 22

Since I last wrote we got a breeze and reached Fayal at 10 in the evening after towing 3 hours we discharged the oil in two days gave the men 2 days liberty four of them run. discharged 3 sick. one with consumption, one cripple and one with Scrup fever. the last was the steward, has had it all the voyage and we have eaten after him. On the rusty cross. Moved up the crew with Portuguese and sailors on the 19th went over to the Island of S. J. George for Potatoes, found the too dear. last night put away for Flores and are now off the N. side of that Island under short sail

Wednesday 23.

Strong winds from the N. N. E. and squally found found too much surf to land on the N. or West sides of the Island: run round on the South side and made out to land about noon saw too rough to take off supplies

Thursday 24th

Wind strong from N. E. squally at 2 P.M. Wind lulled and the sea became rather smoother succeeded in getting off the things and at 4 P.M. stood off to the East

Friday 25

Wind E. N. E. light with squalls Fayal E. N. E. 30 miles at sunset shortened sail for the night Prudent in sight

September 1863 October

Saturday 26

Wind S.E. to E. fresh breeze
S.E. 30 miles at noon

Wind South to S.E. light
breeze and fair weather at 3 P.M. saw
Sperm whaler going E.N.E. at 4, lowered
3 boats and about 3.30 got fast each

Sperm boat to a whale soon had them spout
whales in blood I had my boat stowed by
the whale in his flurry he turned up
2 70 lbs close to and sunk taking the line
at 4.20 with him the ship came to me: got
Sun 9 20 out another boat picked up the wreck
took it in and we got the other two
whales to the ship at 9 A.M. day
ends with light breeze and fair weather
Set 4 28 } noon
Sun 9 20 }

Tuesday 5thWind Southward light breeze and
fair weather just as daylight was breaking
Sperm whales came up close to the ship

Sperm got the boats ready and lowered: as
whales soon as it was light enough the boats
nothing went on and struck two whales one
sounded and took the line and went
off the other sounded, took a line &
a half and the Iron drew apart and
he went off spouting blood came to
the ship and went to cutting the

January 1864.

So ends March has been rather an uncomfortable month

April 1864

Friday 1st

Wind S.S.W. strong breeze with cloudy with rain and foggy. Steered to the N.E. ward at sunset steered Eastward

Lat 37° 47' N.

Saturday 2nd

Lon 31 00 W.

Wind S.S.W. fresh breeze and thick Steered East till 8 A.M. then kept off North at 9³⁰ made the buoys on the West side of Tex and saw the land soon after were ship to the Westward and stood off thinking it unsafe to anchor in Foul roads in the present state of the wind & weather

Lat 38 16

Lon 29 00

Sunday 3rd

Wind South hard gale with squalls of rain and thick weather. Day to head to the East 12 hours and head to West 12 hours quite a large sea running but the ship like a duck lays with quite dry feathers

Lat 38 15

Lon 30 10

Monday 4th

Wind S.W. strong gale and thick weather at 7 A.M. steered in for the land and at 10 made the S.W. side of Foul got ready to anchor and at 4 P.M. brought up in the Roads in 18 fathoms. Found the Bark President lying off and on having landed her oil two days previous There are no less than nine vessels here that have put in to repair damages sustained in the gales that have been sweeping the Atlantic for the last four weeks some of them looking

April 1864

with sons of spars and deck swept
of every thing moveable and many
of them with damaged cargoes

Tuesday 5th & Wednesday 6th

Got the oil
out and hauled and got the recruits
onboard and on the 7th at 10 o'clock.
I went to the Consulate for my papers
and found that several of my crew
had lodged a complaint with the Consul
against myself and Mate complain-
ing of bad usage and short allowance
of provisions that Officer ordered the
men to be brought on shore that he might
hear their statement accordingly they
came and after hearing their statement
he decided that four out of the six were
entitled to their discharge the last four
were portugues I had seven men of my
crew that I took on board last fall with-
out legally shipping them, they left
of course and that left me but eleven
men all told Officer included For a
day or two I thought that my voyage
would be broken up but by doing all
in my power and by paying men to
help me I was able to ship from one
to two men per day on Sunday the
10th it came on to blow and I was
obliged to get an anchor and chain
from the shore to keep the vessel in safety
that cost 46 dollars poles signals and
rain have been the order of the day
about all the time that I have been here
I should have left Fuyat and gon
ove to Flores but how was I to get there
the wind blowing a gale from N.W.

April 1864

I should not have been put to any trouble about men had it not been for the lies which those bad men told about the ship or rather the officers and the Consul gave me no help. I will not say that he hindered me from shipping men, its enough to say that he had a vessel of his own for which he wanted a crew but I found friends as I always have and with their help I made up my crew boatstewers and all shipping the last boatstewer this morning. I believe that I have a better crew than at any other time during the voyage.

Monday 18th

Wind Westward at 4 P.M. got under way and steered out to the North by under short sail hauled to the North

Tuesday 19th

Strong gale from the Westward and thick weather at 6 P.M. kept away to the Eastward.

Thursday 23rd

Wind Westward light breeze
and fine weather Steered by the wind
to the Southward till 4.30 P.M. and were
to the North at daylight steered to N.E.
and at 4.30 P.M. came to anchor in
Little Fish Bay

Friday 24th

Wind from the Southward
light breeze and fine weather
Entered my complaint to the Governme
nt in regard to keeping the vessels
Register made a demand for com-
pensation and am now waiting an
answer I made a demand for them
to pay to me here the sum of 2000
dollars, and in case they do not I
shall enter a claim against the Govern-
ment of Portugal for 20,000 dollars

March 1865

Saturday 25th Wind from the Southward light breeze and fine weather. Closed all of my business on shore and am ready for sea. This has been a very sad affair for me after all of the ill success that has attended me in whaling. To have this added there to is crushing the chimney with a vengeance; what the end will be is known only to Him that knoweth all things and with him I must leave it.

Sunday 26th Begins with a light breeze from the Southward. At 6 A.M. got under way. As we clew up from the land the breeze freshened and by noon there was a strong breeze which continued to the end. Steered by the wind to the westward. Lat 14 59 S. Lon 11 15 E.

Monday 27th Wind S.S.W. fresh breeze and large sea. Steered by the wind to the Westward. Lat 14 53 S. Lon 9 24 E.

Tuesday 28th Wind S.S.W. light breeze and cloudy. Steered by the wind to the Westward. Lat 15 0 S. Lon 7 36 E.

Wednesday 29th Wind S.S.W. light breeze and cloudy. Steered by the wind to the Westward. At 8 P.M. saw sperm whales struck 1 and the others took off.

Sun 29 46 W

Sunday 14th

Wind N.E. strong breeze and
cloudy steered to the N.W. wind. Saw
a ship bound the same way Sat 13 20

Sun 30 30

Monday 15th

Wind N.E. strong gale and
and squally steered N.E.W. by compass
at 10 A.M. saw sperm whales 1 1/2 miles
to leeward run for them: very hard running
rounded to and lowered the boats: got
too near them with the ship: the whales
saw her and went to the windward
slowly but the wind was blowing a
gale and the boats could make but
little way and consequently could
not come up: wind increased after
noon and sea rose so that had we
struck it is very doubtful if we
should have saved the whale at 2 P.M.
got the boats up without accident
and I was quite glad to have them
safe on the cranes; one thing is certain
we could not cut a whale now if
we had a hundred along side

Parted the fore rope to the fore top sail
took it in and furled it - Sea rises -
reefed the main Top sail and steered
N.W. by compass. Have had no
observations for Sat for two days

Just before the battle Mother
 I'm thinking most of you
 While upon the field we're fighting
 With the enemy in view
 Comrades lie around me lying
 Filled with thought of home and God
 For well they know that on the morrow
 None will sleep beneath the sod.

Chorus Farewell Mother you may never
 Kiss me to your heart again
 But, oh you'll not forget me Mother
 If I'm numbered with the slain

Oh, I long to see you Mother
 And the loving ones at home
 But I'll never leave our banner
 Till in honor I can come
 Tell the warriors all around you
 That their cruel words we know
 In every battle kill our soldiers
 By the help they give the foe

Hark! I hear the bugles sounding
 'Tis the signal for the fight
 Now may God protect us Mother
 As he ever does the right
 Hear the "battle cry of freedom"
 As it swells upon the air
 Oh, yes, we'll rally round our standard
 Or we'll perish nobly there
